- **Today (30 August):** Most of Luzon and Visayas, Zamboanga del Norte, Misamis Occidental, Lanao del Norte, Misamis Oriental, Camiguin, Dinagat Islands, Davao Occidental, and Davao Oriental.
- **Tomorrow (31 August):** Most of the country
- **Tuesday (01 September):** Most of Luzon and Visayas, Zamboanga del Norte, Misamis Occidental, Lanao del Norte, Misamis Oriental, Camiguin, Dinagat Islands, Davao Occidental, and Davao Oriental.

TROPICAL CYCLONE BULLETIN NR. 3

Tropical Depression PILANDOK

Issued at 11:00 PM, 30 August 2026

Valid for broadcast until the next bulletin at 5:00 AM tomorrow.

HAZARDS AFFECTING COASTAL WATERS

24-Hour Sea Condition Outlook

Up to rough seas over the following coastal waters:

- **Up to 4.0 m:** The western seaboard of Babuyan Islands; the seaboards of Ilocos Norte.
- **Up to 3.5 m:** The seaboards of Batanes, Ilocos Sur, and Zambales; the northern seaboard of Babuyan Islands; the western seaboards of Pangasinan and Bataan.
- **Up to 3.0 m:** The seaboard of Lubang Islands; the western seaboards of northern La Union, Cavite, Batangas, and northern Occidental Mindoro; the southern seaboard of Bataan; the northern and western seaboards of Kalayaan Islands.
- **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced or operating ill-equipped vessels.**

Up to moderate seas over the following coastal waters:

- **Up to 2.5 m:** The western seaboard of northern Palawan including Calamian Islands; the eastern seaboard of Davao Oriental; the remaining seaboards of Babuyan Islands and Kalayaan Islands; the remaining western seaboard of Occidental Mindoro.
- **Up to 2.0 m:** The seaboards of Isabela, northern Aurora, Romblon, Caluya Islands, Cuyo Islands, Antique, Surigao del Sur, and Davao Occidental; the southern seaboards of Camarines Sur, Marinduque, Iloilo, and Guimaras; the western seaboards of Burias Island and Negros Occidental; the remaining seaboards of Davao Oriental; the remaining western seaboard of mainland Palawan.
- **Mariners of motorbancas and similarly sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

Other coastal waters have forecast wave heights of less than 2.0 m.

TRACK AND INTENSITY OUTLOOK

- **It must be emphasized that heavy rainfall and severe winds may still be experienced in localities outside the landfall point and the forecast confidence cone. Refer to "Other Hazards affecting Land Areas" for more details. Furthermore, the track may still shift within the limit of the forecast confidence cone.**
- PILANDOK is forecast to move west northwestward tomorrow (31 August) before turning generally northwestward for the remainder of the forecast period. This tropical cyclone is less likely to make landfall over the country and will remain far from the Philippine landmass. The forecast track is highly uncertain and may change in the succeeding bulletins.
- PILANDOK is forecast to remain a tropical depression until tomorrow evening and may weaken into a remnant low over the Philippine Sea south of the southern islands of Japan on Tuesday (01 September).

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 5:00 AM tomorrow.
